

THE PREDATOR

- **Patented Sweep Expansion Limiter (SEL) prevents damage to outer casing**
 - Reduces torque while milling
- **Bi-directional: single, dual, and triple string section milling**
- **Unique pressure chamber drive system**
- **Exclusive modular blade design**
- **Designed to drift restricted ID's**
- **Equipped with proprietary Reaper tungsten carbide inserts**
- **Mud motor utilization optional**

Multiple patents issued and/or pending both foreign and domestic

TOOL ATTRIBUTES

	5.75 Predator	7.875 Predator
Body OD (in)	5.75	7.875
Approx. Tool Length with Top Sub (ft)	13' 2"	14' 7"
Approx. Tool Weight (lbs)	800	1700
Milling Direction	Up/Down	Up/Down
Drift Casing (in)	7	9.625
Section Mill Casing (in)	7 - 13.625	9.625 - 18.625
Burnish Casing (in)	8.625 - 13.625	10.75 - 20
Top Connection	3 1/2 IF BOX	4 1/2 IF BOX
Top Sub Jetting	3 Upward 1 Downward	3 Upward 1 Downward
Flow-Through Jetting	1 Downward	1 Downward
