

THE SCORPION

- **Patented Sweep Expansion Limiter (SEL) prevents damage to outer casing**
 - Reduces torque while milling
- **Optimized and efficient design utilizing a single pin system for field serviceability and minimal components**
- **Dual-Piston allows for wide range of operational flow rates**
- **Designed for single and dual string milling**
- **Coiled tubing or pipe deployment**
- **Equipped with proprietary Reaper tungsten carbide inserts**
- **Mud motor utilization optional**

Multiple patents issued and/or pending both foreign and domestic

TOOL ATTRIBUTES

	300 Series	350 Series
Body OD (in)	3.09	3.625
Tool Length with Top Sub (ft)	5'	5' 10"
Approx. Tool Weight (lbs)	105	165
Milling Direction	Up	Up
Drift Casing (in)	4	4.5
Section Mill Casing (in)	4 - 5.5	4.5 - 7
Burnish Casing (in)	4 - 9.625	4.5 - 9.625
Top Connection	2.375" PAC DSI BOX	2.375" PAC DSI BOX
Top Sub Jetting	1 Upward 1 Downward	1 Upward 1 Downward
Flow-Through Jetting	2 Downward	2 Downward
